

# 380 In-house Distribution Box

## Overview

Operating at 380V, the boxes feature a main line switch, seat circuit, and outgoing circuits. Leakage protection can be added as needed to enhance electrical safety. We offer custom sizing to accommodate diverse installation requirements, even beyond standard dimensions. These enclosures are designed to house and safeguard electronic components from environmental factors such as dust, moisture, and physical damage. The Merlin Gerin Three-phase Electric Meter Complete Set of Boxes is an essential electrical solution for residential, commercial, and industrial applications. SP-XL low-voltage power distribution cabinet is suitable for three-phase three-wire, three-phase four-wire, three-phase five-wire system of 400V and below, and is used for power lighting distribution. It has the characteristics of flexible power distribution scheme, convenient combination, strong. Customized complete distribution boxes, ideal for indoor environments like factories and workshops, offer a range of configuration options.
