

6-core ASS fiber optic cable model

Overview

The G202-xxU-6LC is a six-core multi-mode finished fiber cable, which is mainly used with audio and video optical fiber extenders. When selecting a 6 core fiber optic cable for your networking needs, prioritize single-mode over multimode if you require long-distance transmission (over 550 meters), and ensure the cable includes tight-buffered or loose-tube construction based on indoor or outdoor use. Different from generic fiber. 6. The cable can be used in a span of 450 feet with NESC light conditions, 300 feet for NESC medium and 240 feet for NESC heavy conditions. The Broadstick fiber cable provides a high quality connection; it is ADSS All Dielectric Self – Supporting The Broadstick fiber cable provides a high quality connection; it is ADSS All Dielectric Self – Supporting The mechanical performance of ADSS optical cable is mainly embodied in the maximum. This 6F OFC RDSO-approved optical fiber cable on best price is designed for underground telecom and railway signaling applications. Built with single-mode ITU-T G. 652D fibers and protected by corrugated steel tape armor, it ensures high durability in harsh environments.
