

Delivery Date DAC High-Speed Cable SFP

AI Overview

Delivery times for DAC SFP cables depend on cable type, length, customization, and vendor stock availability.

Overview of DAC SFP Cables

Direct Attach Copper (DAC) cables are factory-terminated copper assemblies with SFP connectors at both ends, designed for short-range, high-speed connections between servers, switches, and storage arrays. They come in two main types:

- Passive DAC:** No electronics, low cost, low power, typical reach 1–5 meters, ideal for in-rack connections.
- Active DAC:** Includes signal conditioning electronics, extends reach up to 9–15 meters, slightly higher cost, consumes
