

Distribution Box 3a

Overview

Nader NDP3A concealed distribution box series is applicable to indoor AC 50Hz or 60Hz, rated working voltage up to 440V, generally not exceeding 35 °C and occasionally reaching 60 °C. It is used to provide protection for circuit breakers, switches, sockets and other electrical accessories against. Eaton's Pow-R-Line 3a distribution panelboards provide a compact and flexible solution for electric power distribution with integrated breakers, metering and surge protection. Additionally, they're designed to meet UL 67 and NEMA PB1 standards for use in data centers, industrial, commercial and. Enter the Matek CANPDB-3A, a glorified, high-voltage power bar for people who actually care about their cable management (or at least pretend to for the 'gram). Most PDBs give up the ghost the moment you show them anything north of 6S. This absolute unit laughs at 70V. Each fuse is designed to blow when the current exceeds a certain limit, thereby cutting off the power to prevent damage. The range of applications extends from pure energy distribution in buildings to building automation and through to industrial plants. SMART DISTRIBUTION BOXES FOR FLEXIBLE BUILDINGS.
