

East Africa Dedicated Power Fiber Cable

Overview

09 February 2026: Pan-African telecommunications and network services provider Paratus Group has today switched on a major new fiber route in East Africa, directly connecting Mombasa on the Kenyan coast to Goma in the eastern Democratic Republic of Congo (DRC) through a protected. 09 February 2026: Pan-African telecommunications and network services provider Paratus Group has today switched on a major new fiber route in East Africa, directly connecting Mombasa on the Kenyan coast to Goma in the eastern Democratic Republic of Congo (DRC) through a protected. For use in data storage, transmission and telecommunication Copper electrical cables and conductors for domestic as well as industrial applications Aluminium conductors and cables for power distribution and transmission over national gridlines. Welcome to the virtual home of the East African Cables. The launch of 2Africa enables us to offer our customers seamless connection between Africa and Europe, together with our SEA-ME-WE 5 and AAE-1 subsea cable resources to further extend to Asia, which is an important milestone of our global development strategy,” said Jessica Gu, Director & Chief. The story most diaspora and family office investors hear about East African digital infrastructure is the headline layer — the data centers, the cloud platforms, the AI-readiness narrative. The story they don't hear, but should, is the layer underneath. The actual cable in the ground, on. At Spectrum Engineering Africa, we deliver high-performance fiber optic networks that form the digital backbone for enterprises, institutions, and service providers across East Africa. From multi-kilometer trunk deployments to last-mile connectivity, our fiber solutions are reliable, scalable, and. East African Cables is a premier cable manufacturer, with a footprint that spreads across East and Central Africa. In addition, EAC is present in Uganda, Rwanda, Burundi. We're excited to share the completion of the core 2Africa infrastructure, the world's longest open access subsea cable system. 2Africa is a landmark subsea cable system that sets a new standard for global connectivity.

Article Content

East Africa Cables Tenders and RFPs

Globaltenders offers an unmatched database of Cables tenders from East Africa, more than any other platform. Daily, new procurement opportunities for Cables are uploaded from

EAC :: Our Company

East African Cables is a premier cable manufacturer, with a footprint that spreads across East and Central Africa. The company has four manufacturing facilities; two in Nairobi, Kenya, one in Dar es

Home | 2Africa Cable

The 2Africa cable will be integrated into STC's MENA Gateway (MG1) datacentre in Jeddah, enabling customers to access our extensive international content and extend their regional connectivity

Fiber Optic Expansion in East Africa: The Infrastructure

Here's what's actually happening with East African fiber expansion, and where I think the investment opportunity sits. The submarine cable layer is

Paratus lights up new East Africa fiber highway linking

The new route complements the Paratus Group's broader East-West fibre backbone, which stretches from Maputo to Swakopmund and interconnects

Multinational

Project General Description The EASSy project is an initiative to construct and operate a submarine fibre-optic cable along the east coast of Africa to connect 20 coastal and land-locked

EAST AND CENTRAL AFRICA OPTICAL FIBER ROLL-OUT

The project concerns the deployment of fibre optics networks in regions of Eastern Africa where, either this kind of networks are not available, or they are expensive and unreliable. In both

OpEd: Understanding Submarine Cables And East African Internet

Submarine cables are responsible for connecting Africa to the rest of the world using high speed fiber optic internet infrastructure.

List of terrestrial fibre optic cable projects in Africa

This is a list of terrestrial fibre optic cable projects in Africa. While submarine communications cables are used to connect countries and continents to the Internet, terrestrial fibre optic cables are used to

From Oman to Mombasa: USD 2.9B Subsea Cable

Meta Platforms Inc. has officially partnered with Safaricom PLC on a groundbreaking USD 2.9-billion subsea cable project aimed at bolstering internet

Fiber Optic Cable Market Size

Fiber Optic Cable Market Size & Share Analysis - Growth Trends and Forecast (2026 - 2031) The Fiber Optic Cable Market Report is Segmented

NiaFiber

An ADSS cable is a non-metallic fiber optic cable designed for aerial installation along power lines. With a dielectric, weather-resistant sheath, it withstands

SatellitePro ME

SatellitePro ME addresses all aspects of the satellite industry, covering the key vertical markets including Oil & Gas, Broadcast, Telco, Maritime, Government &

Welcome to East African Cables

Overhead Conductors Aluminium conductors and cables for power distribution and transmission over national gridlines.

Announcing the Completion of the Core 2Africa System:

This is double the capacity of older systems. It is the first 16-fiber-pair subsea cable to fully connect Africa. We incorporated undersea optical

Africa Cables Market

Power cables occupy the largest value share due to national electrification targets and cross-border transmission projects, while fiber optics segments register the

Fiber Optic Expansion in East Africa: The Infrastructure ...

Tower companies operating across East Africa — IHS Towers, Helios Towers, ATC Africa — provide the passive infrastructure layer that fiber, mobile, and increasingly small-cell

Fiber Solutions | Spectrum Engineering Africa

Build enterprise-grade fiber optic networks with Spectrum Engineering Africa. End-to-end planning, trenching, cabling, testing, and SLA-backed support across East Africa.

East African Cables Product Catalogue

East African Cables is a leading manufacturer of cables in East and Central Africa with operations since 1966. Their vision is to be the preferred provider of cabling solutions and their mission is to exceed

Announcing the Completion of the Core 2Africa System:

The completion of 2Africa is a defining moment for Africa's digital future. By leading the design, funding, and deployment of the world's longest

Offshore Wind Cable Laying Vessel Market Research Report 2033

Segments - by Vessel Type (Cable Laying Vessels, Cable Repair Vessels, Support Vessels), Application (Offshore Wind Farms, Subsea Power Cables, Telecommunications), Capacity (Small, Medium,

Paratus lights up new East Africa fiber highway linking

Pan-African telecommunications and network services provider Paratus Group has today switched on a major new fiber route in East Africa,

EAST AFRICAN SUBMARINE OPTIC FIBRE PROJECT

The proposed East African Submarine Cable System (EASSy) is a multinational project, which is expected to provide improved inter-regional and global ICT connectivity.
