

Egyptian telecommunications power and optical cable manufacturers

AI Overview

Egypt hosts several leading manufacturers of power, telecommunications, and fiber optic cables, including Electro Cable Egypt, Remac Cables, Energya, Egypt Cable, and FiberME Communication. Key Manufacturers

Electro Cable Egypt (ECE) Founded in 1954, ECE is one of the largest and most diversified cable manufacturers in Egypt, producing power cables (low, medium, high tension) and telecommunication cables for both domestic and export markets. Their facilities in Qalyubia Governorate cover over 370,000 sq.m., and they maintain environmentally sustainable production lines. ECE serves the electricity sector extensively and exports to Africa, Europe, and Arab countries, making it a major player in regional cable supply.

Remac Cables Established in 2007, Remac Cables specializes in high-quality power cables, control cables, low voltage, and industrial cable solutions. They cater to construction, infrastructure, and energy projects across Egypt and Africa, emphasizing quality and reliability.

Energya Cables A division of Energya Industries, Energya Cables has been producing low, medium, high, and extra high voltage power cables (up to 500 KV) since 1988. They offer copper or aluminum conductors, PVC or XLPE insulation, and armored or sheathed options. Energya also provides technical solutions for transmission networks and distribution systems across the Middle East and Africa, with ISO 9001:2015 certification ensuring quality and safety standards.

Egypt Cable (ECM) Founded in 2003, Egypt Cable is a rapidly growing manufacturer with a factory in Beni-Suef Industrial City. They produce low, medium, and high voltage cables, electricity wires, conductors, and building wires, with a production capacity of 1800 tons of aluminum and 2000 tons of copper per month. ECM emphasizes international quality standards and serves both Egyptian and Middle Eastern markets.
