

Eight-port optical cable terminal box

Overview

This wall mounted fiber termination box is equipped with 8 external adapter ports, designed to organize, protect, and manage fiber splicing and terminations for indoor network applications. One end of it is an optical cable and the other end is a pigtail. Its IP65 sealing, 1×8 splitter integration, and versatile mounting enable efficient, low-maintenance deployments in last-mile access scenarios while ensuring. The 8 port Fiber Distribution Box is sturdy in structure, lightweight in size, and easy to install. This distribution box can connect. MST Multiport Fiber Terminal, Single-Tube Gel-Filled Cable, Toneable, Stubbed Tail, 8 port ZTO Cable Multiport Service Terminal (MST) Box is designed for FTTx-ODN network access points, providing a pre-connected solution that eliminates the need for closure opening and fiber splicing.
