

Fiber optic cable model AdSS-PE

Overview

Fiber reinforced plastic central strength member, loose tube stranded, PE sheath all-dielectric, self-supporting aerial cable. Application Operating Temperature Water-blocking construction Moisture-proof and prevents water penetration This specification covers the design requirements and performance standard for the supply of optical fibre cable in the industry. It also includes ARTIC premium designed cable with optical, mechanical and geometrical characteristics. It requires no messenger wire, withstands high electric fields up to 220 kV, and supports spans from 50 m to over 1,500 m — making it. Everything you need to know about ADSS (All-Dielectric Self-Supporting) fiber optic cable: structure, sheath types, span design, and selection for aerial telecom and utility projects. com 1 (800) 866-7385 © 2024, AFL, all rights reserved.
