

Gray angled fiber optic panel

Overview

The dark gray 86-type fiber optic panel is compatible with SC/LC fiber optic modules and is suitable for single/double computer fiber optic network connections, effectively extending the transmission distance. The 1RU panel allows for pre-terminated solutions and open access to patch cords without the need of any. NG4access[®] Cabled Modules available in all module sizes and fiber counts up to 864 fibers. NG4access[®] Splice Tray Four sizes of interchangeable Propel fiber pass-through adapter packs provide the breadth of capabilities for virtually any configuration. Four sizes of interchangeable Propel fiber. Optimize data center efficiency with our fiber adapter panel. With a range of connector options, enable efficient deployment and future modifications of your network. This panel is ideal for deployment above cabinets, within racks, and within cabinets in data center steel with a. High-density OPT-X[™] HDX Angled Panels provide an inter-connect or cross-connect between backbone horizontal cable and active equipment while minimizing rack space in a frame or cabinet.
