

How much does galvanized cable tray cost in Mozambique

AI Overview

Galvanized cable trays in Mozambique typically cost between \$30 to \$70 per 2.4-meter section, depending on type, thickness, and supplier.

Cost Overview Galvanized cable trays are made from steel sheets coated with zinc through hot-dip galvanization, providing corrosion resistance and durability suitable for harsh environments in Mozambique. The most common type is the ladder-type hot-dip galvanized cable tray, which is widely used in industrial, construction, and electrical projects.

Standard length: 2.4 meters

Estimated price range: \$30–\$70 per section, depending on material thickness, load capacity, and supplier

Fittings and accessories: Sold separately, typically priced per piece or unit

Factors Affecting Price

Material quality: Higher-grade steel and thicker zinc coatings increase cost.

Tray type: Ladder, perforated, or solid-bottom trays have different prices. Ladder trays are generally more expensive due to structural strength.

Supplier and shipping: Local suppliers like Brilltech Engineers offer competitive pricing, but imported trays may incur additional shipping and customs costs.

Volume: Bulk orders often reduce the per-unit cost.

Recommendations

Request quotes: Contact local suppliers in Mozambique to get precise pricing for your project specifications.

Consider installation costs: Galvanized trays are designed for easy installation, which can save labor costs.

Check for warranties: Ensure the supplier provides corrosion resistance guarantees for long-term durability. By considering these factors, you can budget effectively for galvanized cable trays in Mozambique and select the best supplier for your project needs.
