

Huijue Optical Cable Technology

AI Overview

Huijue Optical Cable is manufactured by Shanghai Huijue Network Communication Equipment Co., Ltd., offering high-quality fiber optic solutions for telecom, data centers, and industrial applications. Manufacturer Overview Huijue Network, established in 2001 and headquartered in Shanghai, China, is a leading provider of telecom and communication products, including optical fiber cables, patch cords, and network cabinets. The company operates a large production base in Jiangsu Province, covering over 35,000 square meters, with specialized workshops for sheet metal, patch cords, and fiber optic cable assembly. Huijue Network serves both domestic and international markets, exporting to Europe, North America, Southeast Asia, the Middle East, and Australia. Product Specifications Huijue Optical Cables are designed for FTTX networks, data centers, and outdoor telecom applications. They include multi-core fiber options, such as 12-core patch cords, and are compatible with standard telecom infrastructure. The cables are manufactured under strict quality control systems and comply with international certifications, including ISO 14001, ISO 45001, CE, and RoHS, ensuring reliability and safety. Detailed datasheets for specific models, such as the Huijue Optical Cable 484, are available in PDF format for technical reference. Applications Telecom networks: Connecting central offices, distribution points, and subscriber lines. Data centers: High-speed fiber connections for servers and storage systems. Industrial and power sectors: Reliable fiber communication in harsh environments. Global trade: Huijue Optical Cables are supplied to international buyers, including markets in Burkina Faso, with trade data available for shipment and volume analysis. Key Advantages Customizable solutions: From design to production, Huijue offers one-stop services tailored to client requirements. High-quality materials and assembly: Ensures low signal loss and durability in various environments. Global reach: Extensive export network and part...
