

Huijue Steel Cable Tray Unit Price

AI Overview

Huijue steel cable trays typically cost between \$5 and \$25 per meter, depending on material, type, and finish. Steel cable tray prices vary based on several factors, including the type of steel, coating, tray design, and size. Hot-dip galvanized ladder trays, which are common for industrial and commercial use, are priced per standard length (usually 2.4 meters) and can range from \$5 to \$25 per meter for general steel trays. Stainless steel or aluminum trays are more expensive due to corrosion resistance and lightweight properties, with aluminum trays ranging from \$6 to \$30 per meter and FRP trays from \$10 to \$50 per meter. Cost factors include:

- Material:** Galvanized steel is cost-effective, stainless steel is more durable but pricier, and aluminum is lightweight and corrosion-resistant.
- Tray type:** Ladder trays are stronger and more expensive, while perforated or wire mesh trays are cheaper and suitable for lighter loads.
- Surface finish:** HDG (hot-dip galvanized) offers long-term durability, powder coating adds protection and color options, and pre-galvanized trays are cheaper but less durable.
- Volume and bulk orders:** Large orders or factory-direct purchases can reduce the per-meter cost.
- Shipping and labor:** Heavier trays cost more to transport, and installation costs vary by region and complexity.

For Huijue brand trays, contacting a local distributor or requesting a quote is recommended, as prices may vary based on specifications, customization, and bulk discounts. This ensures you get an accurate cost tailored to your project requirements.
