

Japanese Indoor Optical Cable Equipment Manufacturer

AI Overview

Lightera (formerly Furukawa Electric) is a leading Japanese manufacturer of indoor optical cable equipment, offering comprehensive fiber optic and connectivity solutions. Key Manufacturer: Lightera (Furukawa Electric) Lightera, formed by uniting Furukawa Electric's fiber and cable division with OFS and Furukawa Electric LatAm, is a major Japanese provider of optical fiber and connectivity solutions. They specialize in indoor and high-density network infrastructure, offering products for: Data centers and corporate networks Industrial Ethernet and automation systems Telecommunication network expansion Their solutions emphasize efficiency, durability, and sustainability, making them suitable for indoor installations in offices, industrial facilities, and public administration networks. Other Japanese Suppliers A broader list of Japanese wires and cables suppliers includes companies that provide indoor optical cable solutions and related equipment: SFEX: Offers fire-retardant cable trays and tapes for indoor cable safety, ensuring compliance with flame and fire standards. Their products are designed for access floors, cable pits, and vertical cable installations. Other local manufacturers: Various Japanese suppliers listed in trade directories provide indoor optical cables, connectivity components, and installation accessories suitable for commercial and industrial applications. Applications and Features Japanese indoor optical cable equipment typically features: High-density connectivity for offices and data centers Fire safety and flame retardance for indoor environments Durable and reliable fiber systems for industrial and automation networks Flexible solutions for corporate and telecommunication projects These manufacturers focus on quality, compliance with international standards, and long-term reliability, making them suitable for both domestic and international projects
