

Mexican electrical distribution box sales point

AI Overview

Electrical distribution boxes in Mexico can be sourced from major distributors and industrial suppliers such as Comision Federal De Electricidad, Beyond Energy, Falco Electronics, HiscoMex, and Bricos. Key Distributors and Suppliers

Comision Federal De Electricidad (CFE): The national utility company provides electrical distribution equipment and services across Mexico, including industrial and residential distribution boxes.

Beyond Energy: Offers a range of electrical distribution solutions for commercial and industrial applications.

Falco Electronics: Specializes in magnetic-based electronic components and distribution equipment.

HiscoMex: A top industrial distributor in Mexico, serving electronics, electrical, automotive, and aerospace sectors. HiscoMex provides import, procurement, and stock services for electrical components, including distribution boxes, through its certified maquiladora operations.

Bricos: Focuses on distributing electrical materials and equipment, including panels and accessories for residential and commercial use.

Amesa: Offers integrated electrical panels, grounding systems, and accessories for industrial and commercial installations.

How to Access Sales Points

Company Websites: Most distributors maintain websites with product catalogs, contact forms, and regional sales offices. For example, HiscoMex provides detailed product and supply chain services online.

Local Branches and Retailers: Companies like Bricos and Amesa have physical locations or authorized resellers in major Mexican cities.

Industrial Supply Networks: Many distributors operate through industrial supply chains, offering bulk orders and installation support for commercial and industrial projects.

Government and Utility Channels: CFE can provide distribution boxes for large-scale projects or public infrastructure, often through direct procurement or authorized contractors.
