Mexico s Smart Distribution Box Scheme Publicly Announced

Overview

On February 3, 2026, President Claudia Sheinbaum's government announced Mexico's most ambitious public-private investment plan in modern history: 5. 6 trillion Mexican pesos, equivalent to approximately $323 billion USD. The incorporation of 8,412 MW of energy storage systems is planned for the 2024-2038 fiscal year. The Official Gazette of the Federation of Mexico has published Agreement A/113/2024 of the Energy Regulatory Commission, which issues the General Administrative Provisions for the integration of. The Mexican government will announce 77 new projects, 9 of which will be tendered in 2025, in the states of Jalisco, Coahuila, Sinaloa, Chihuahua, Tamaulipas, Nuevo León, Baja California, and Guanajuato, representing a total investment of 476 million pesos and a capacity of 1,705 MVA. CFE announced progress in the improvement and modernization of the National Transmission and Distribution System as part of a broader strategy to anticipate sustained growth in electricity demand and strengthen the reliability of the National Electric System. The update was delivered by CFE's.
