AI Overview

Network rack mounting brackets typically range from around \$12 to over \$600 depending on type, size, and brand.

Price Overview

Entry-Level Brackets: Simple 1U or 2U rack ears, DIN-rail mounts, or small wall-mount brackets start at \$12-\$40. Examples include EtherWAN DIN-Rail brackets (\$17-\$37) and basic Ubiquiti or Teltonika wall/pole mounts (\$12-\$22).

Standard Wall or Vertical Mount Brackets: 1U-4U steel wall-mount brackets for switches or patch panels typically cost \$35-\$80. StarTech 1U steel vertical wall mount brackets are priced at \$55.99, while 2U or 3U versions range from \$35.99 to \$69.99.

Adjustable or Heavy-Duty Brackets: Adjustable rails, cantilever shelves, or brackets supporting higher weight capacities range from \$40-\$130. Examples include StarTech adjustable vented shelves (\$120.79-\$127.09) and Tecmojo 4U/8U wall-mount racks (\$79-\$130).

Brand-Specific or Enterprise Brackets: Brackets designed for specific devices or high-end enterprise racks can cost \$150-\$600+. For instance, Cisco network device mounting brackets are listed at \$324.99, and APC or Vertiv rack mounting kits for UPS or large enclosures range from \$175 to over \$360.

Factors Affecting Price

Rack Size and U Height: Larger brackets or those supporting multiple rack units (2U-8U) are more expensive.

Material and Build Quality: Steel or heavy-duty brackets cost more than basic aluminum or plastic mounts.

Brand and Compatibility: OEM brackets for Cisco, Ubiquiti, Dell, or APC devices are priced higher due to guaranteed compatibility.

Additional Features: Adjustable depth, hinged access, or integrated cable management can increase cost.

Buying Tips

For home or small office setups, basic 1U-2U brackets (\$12-\$60) are usually sufficient. For enterprise or high-density racks, consider heavy-duty or brand-specific brackets (\$150-\$600+) to ensure stability and compatibility.
