

ONV Switch Industry

Overview

ONV Industrial Ethernet Switches, developed by Optical Network Video Technologies (Shenzhen) Co., are rugged networking solutions designed for industrial integrators and system integrators operating in harsh environments. Products are exported to more than 120 countries, including those in Europe, North America, Southeast Asia, and the. Explore the convenience and flexibility of PoE Switch - an intelligent networking solution incorporating Power over Ethernet (PoE) technology. Transmit data and deliver power over the same Ethernet cable, reducing cable clutter while optimizing the management and operation of network devices., Ltd is now one of the leading manufacturers of security transmission equipment in China. Established in 2003, ONV has a registered capital of 30 million. (Brand ONV) is a high-tech enterprise specializing in the research, development, production, sales, and service of PoE switches, industrial switches, power supplies, wireless products, optical Fiber converters, and PoE accessories. Unmanaged industrial PoE switch with 6*10/100/1000M RJ45 ports.
