

Power distribution box with cable

1075KWHH ESS

AI Overview

Power distribution boxes with cables are essential devices for safely distributing electrical power to multiple outlets, available in pre-wired, customizable, and rugged designs for indoor and outdoor use.

Overview A power distribution box (also called a power distro box) is a device that takes a single electrical supply and distributes it to multiple outputs, allowing safe and organized power delivery for events, construction sites, or industrial applications. These boxes often come with pre-attached cables and can include multiple sockets, circuit breakers, and safety devices to protect connected equipment and users.

Key Features

- Sockets and Outputs:** Common configurations include multiple 13A or 16A sockets, sometimes with higher amperage options for heavy-duty equipment.
- Safety Devices:** Many boxes include RCDs (Residual Current Devices) and MCBs (Miniature Circuit Breakers) to prevent overloads and electrical faults.
- Housing and Protection:** Boxes are often made from high-impact, double-insulated materials like solid rubber or IP54-rated enclosures, providing protection against dust, moisture, and outdoor conditions.
- Pre-Wired and Ready-to-Use:** Some models come pre-wired with N + PE terminal blocks and cable glands for secure installation, reducing setup time.
- Customization:** Manufacturers offer bespoke solutions, allowing you to select the number of sockets, cable lengths, and specific safety features to match your requirements.

Applications

- Events and Entertainment:** Powering lighting, sound systems, and stage equipment safely and efficiently.
- Construction Sites:** Providing temporary power to tools and machinery in harsh environments.
- Industrial and Temporary Installations:** Distributing power in factories, workshops, or temporary setups where multiple devices need reliable electricity.

Examples of Products

- RoadEu UK Power Distribution Box:** Features 2x 13A sockets, 40A RCD, IP54 housing, and pre-wired installation for indoor/outdoor use.
- Rubber Box Custom Distro:** Offers bespoke, high-impact rubber enclosures with ca...
