

# Price of 2-core Single-mode Fiber Optic Cable

## AI Overview

The price of 2-core single-mode fiber optic cable typically ranges from \$0.30 to \$4 per meter, depending on specifications, jacket type, and purchase volume.

**Price Range and Factors**

The cost of a 2-core single-mode fiber optic cable varies based on several factors:

- Cable Type and Construction:** Tight-buffered, loose-tube, armored, or non-armored cables affect material and production costs. Armored cables for outdoor or harsh environments can add 20-50% to the base price.
- Jacket Material:** Indoor PVC or LSZH jackets are cheaper, while outdoor PE or UV-resistant jackets designed for long-distance or aerial installation are more expensive.
- Performance Features:** Low bend sensitivity, improved attenuation, or enhanced durability for extreme conditions can increase the price.
- Bulk Purchase:** Buying in bulk (e.g., over 10 km) often reduces the per-meter cost due to economies of scale.
- Region and Shipping:** International shipping, freight, and local logistics can add 5-15% to the total cost.

**Typical Pricing**

- Wholesale/Industrial:** \$0.30 to \$1.50 per meter for standard 2-core single-mode cables.
- Retail/High-Quality Cables:** \$1 to \$4 per meter, especially for cables with enhanced durability, outdoor ratings, or specialized coatings.

**Bulk Discounts:** Large orders can reduce the per-meter cost significantly, but storage and handling must be considered.

**Additional Considerations**

- Installation Costs:** Labor, trenching, conduit, and splicing can significantly increase the total project cost beyond the raw cable price.
- Cable Longevity:** Proof-tested fibers and protective coatings improve durability and reduce long-term maintenance costs.
- Application:** Single-mode fiber is ideal for long-distance, high-bandwidth applications, making it more cost-effective for backbone networks despite higher upfront costs.

In summary, for a 2-core single-mode fiber optic cable, expect to pay roughly \$0.30-\$4 per meter, with the exact pr...
