

Price of Sealed Trapezoidal Cable Trays

AI Overview

Trapezoidal cable trays typically range from \$2 to \$25 per meter, depending on material, size, coating, and supplier, with factory prices often lower for bulk orders.

General Market Pricing The average price of cable trays per meter varies widely based on material, type, size, and surface finish. Galvanized steel trays are the most common, balancing durability and cost, while stainless steel and aluminum are more expensive due to corrosion resistance and lightweight properties. Plastic trays are budget-friendly but not suitable for heavy loads. Ladder-type trays, including trapezoidal designs, generally cost more than perforated or wire mesh trays because they support heavier cables and provide better ventilation.

Factory and Bulk Pricing Manufacturers in China, such as Jiangsu Holdee Electric Co., offer trapezoidal bridge/ladder-type cable trays at competitive factory prices. For example, they can produce large quantities of hot-dip galvanized trays with delivery times as short as 7 days for a 40' container. Bulk orders can significantly reduce the per-meter cost compared to retail prices.

Factors Affecting Price

- Material and Coating:** Hot-dip galvanized (HDG) trays cost more upfront but last longer outdoors, while pre-galvanized trays are cheaper but less durable. Powder-coated trays offer wear protection and color options.
- Size and Load Capacity:** Larger trays or those designed for heavy-duty applications increase material costs.
- Supplier and Location:** Prices vary by region, shipping costs, and supplier margins. Local suppliers may offer faster delivery but at higher prices, while overseas factories provide lower unit costs but longer shipping times.
- Order Quantity:** Bulk purchases reduce the per-meter cost and may include free delivery for orders above certain thresholds, such as £100 in the UK.

Practical Tips For industrial or commercial projects, consider galvanized steel trapezoidal trays for durability and compliance with standards like DIN EN 61537.

Compare factory quotes for bulk orders to reduce costs. Factor in installation, shipping...
