

Price of complete sets of sockets for distribution boxes

AI Overview

Industrial sockets in distribution boxes typically range from \$15 to \$150 per unit depending on type, current rating, and IP protection, with full distribution panels costing \$1,200–\$6,000 including installation.

Common Socket Types and Ratings

Industrial sockets are designed for high-current, durable, and safe connections in industrial and commercial environments. Typical types include:

- Surface-Mounted Sockets:** Installed on walls or floors; commonly used in factory power distribution, server rooms, and exhibition halls.
- Flush-Mounted Sockets:** Installed within enclosures; used in distribution boxes, stage lighting, and control systems.
- Connectors:** Used for cable extensions and paired with plugs or appliance inlets for flexible power distribution.

Current Ratings and Voltage: 16A, 32A, 63A, 125A
Voltage: 110V, 220V (blue), 380V (red)
Pin configurations: 3-pin, 4-pin, 5-pin
Protection: IP44 (up to 63A, splash-proof) and IP67 (up to 125A, dust-tight and immersion-proof).

Price Estimates

- Individual Sockets:** \$15–\$50 for standard IP44 sockets (16–63A), \$60–\$150 for IP67 sockets (63–125A) depending on brand and certification (CE, CCC).
- Distribution Boxes:** A full panel replacement, including sockets, breakers, and enclosure, ranges from \$1,200–\$2,500 for 100–125A indoor panels, and \$3,000–\$6,000 for 200A outdoor upgrades with weatherproof enclosures and meter sockets.
- Premium or high-amperage setups:** Multi-phase or sequential powerlock boxes for stage or industrial use can cost significantly more, often exceeding \$1,000 per unit for specialized sockets and connectors.

Factors Affecting Cost

- IP Rating:** Higher protection (IP67) increases cost.
- Current Rating:** Higher amperage sockets are more expensive.
- Installation Type:** Surface-mounted is generally cheaper than flush-mounted or modular combination units.
- Brand and Cert...**
