

Price of concealed electrical box from manufacturer

AI Overview

The price of concealed electrical boxes varies widely, typically ranging from \$2 to \$50 per unit depending on material, size, customization, and order volume.

Pricing Overview

Concealed electrical boxes are available in metal and plastic constructions, with metal boxes generally costing more due to higher strength, durability, and compliance with safety standards. Basic PVC or standard metal boxes for residential or commercial use may start around \$2-\$5 per unit, while feature-rich or security-oriented boxes with specialized finishes, locks, or certifications can cost \$20-\$50 or more per unit.

Factors Affecting Price

- Material:** Galvanized steel, aluminum, stainless steel, and PVC have different costs, with stainless steel and aluminum being more expensive.
- Customization:** OEM/ODM services, custom sizes, and specialized finishes increase unit prices.
- Order Volume:** Bulk orders (e.g., 5000+ units) can reduce unit prices by 20-50% due to economies of scale.
- Certifications:** Compliance with IP ratings, BS, CETL, or other safety standards can add to the cost.
- Logistics and Energy Costs:** Shipping, duties, and energy costs can influence the total cost of ownership.

Sourcing Options

- Alibaba:** Offers a wide range of electrical concealed boxes with options for customization, stainless steel construction, and waterproof designs.
- IndiaMART:** Lists multiple manufacturers and suppliers of metal and PVC concealed boxes, including OEM services and bulk order options.
- Aajjo:** Provides detailed product listings, including specifications, delivery times, and direct contact with manufacturers for quotes.
- Accio:** Offers price lists and market insights for concealed metal boxes, helping buyers compare unit prices and supplier reliability.

Recommendations for Buyers

- Verify material grade and IP rating to ensure durability and safety.
- Confirm MOQ aligns with your procurement needs.
- Request quotes from...
