

Rack-mounted PDU cold aisle outdoor type manufacturers

AI Overview

Key manufacturers of rack-mounted PDUs suitable for cold aisle and outdoor data center applications include Schneider Electric, Eaton, and Ningbo Tuxin, offering both basic and intelligent PDU solutions. Schneider Electric provides a wide range of rack-mounted PDUs designed for high-density data centers, including intelligent, metered, and switched PDUs. Their products support real-time monitoring, outlet-level control, and energy optimization, making them suitable for cold aisle containment setups. Schneider Electric PDUs are engineered for reliability and scalability, with options for both indoor and outdoor-rated enclosures when paired with appropriate cabinets. Eaton offers rackmount PDUs with high-density and flexible deployment options, including Managed, Metered, and Basic PDUs. Their ePDU G4 series provides advanced features such as outlet-level monitoring, remote on/off switching, and high-power density support for GPU-intensive racks. Eaton PDUs are compatible with cold aisle containment and can be integrated into outdoor-rated racks for harsh environments. Ningbo Tuxin Communication Equipment Co. specializes in data center solutions, including outdoor cabinets, server racks, and both basic and smart PDUs. Tuxin has experience in cold/hot aisle containment and offers customized PDU solutions for outdoor deployments. Their products comply with CE and RoHS standards, and they provide OEM/ODM services, making them suitable for international projects requiring outdoor-rated PDUs.

Considerations for Outdoor Cold Aisle PDUs

Weatherproofing and IP rating: Ensure the PDU and rack enclosure are rated for outdoor use to protect against moisture, dust, and temperature extremes.

Intelligent monitoring: Metered or managed PDUs allow real-time energy management and remote control, which is critical for outdoor or remote data center...
