

Sale of remaining optical fiber cables

AI Overview

You can sell leftover optical fiber cables through specialized surplus buyers, B2B marketplaces, and online platforms to maximize value and reach interested buyers. Specialized Surplus Buyers Companies like Discount Fiber and Wire & Plastic Machinery Corp. purchase surplus fiber optic cables, including new, unused, or even partially used inventory. They often buy in bulk, entire lots, or line items, and may offer consignment options where you get paid once the inventory sells. To get an offer, you typically need to provide details such as brand, type (singlemode or multimode), quantity, pictures, and purchase cost. These buyers are ideal if you want a straightforward sale without managing multiple buyers. B2B Marketplaces Platforms like Tradewheel.com, Amazon Wholesale, Newegg, eBay, and Walmart Marketplace allow you to list fiber optic cables for bulk buyers. Success on these platforms depends on providing clear product specifications, photos, and test reports or quality certificates. Selling in bulk often secures better rates, and comparing offers from multiple buyers can help you get a fair price. LinkedIn can also be used to connect directly with importers and contractors seeking fiber optic cables. Surplus Auctions and Salvage Platforms Websites like Salvex specialize in surplus, salvage, and discounted fiber optic cables from corporate surpluses, bankruptcies, or insurance claims. These platforms can help you reach a global audience of buyers looking for commercial-grade fiber optic products. Recycling Options If the cables are obsolete or unusable, companies like Net Recycling can recycle fiber optic cables and associated packing materials, providing an environmentally responsible way to dispose of excess inventory. Tips for Maximizing Value Know your product: Identify type, length, and specifications (singlemode, multimode, plenum, riser, indoor/outdoor). Keep cables in good condition: Clean, untangled, and properly stored reels attract higher offers. Sell in bulk: Larger quantities...
