

Slovenia Waterproof Distribution Box Types

AI Overview

Waterproof distribution boxes in Slovenia are primarily available in IP65 and IP66 ratings, made from durable ABS or PC materials, and come in various sizes and configurations for industrial, commercial, and outdoor applications.

IP Ratings and Protection Levels

- IP65:** Dust-tight and protected against water jets, suitable for outdoor and industrial environments.
- IP66:** Dust-tight and protected against powerful water jets, ideal for harsher outdoor conditions.

Materials

- ABS (Acrylonitrile Butadiene Styrene):** Lightweight, impact-resistant, and halogen-free.
- PC (Polycarbonate):** High mechanical strength, excellent weather resistance, and temperature tolerance from -25°C to +80°C.

Configurations and Sizes

- Module/Way Options:** Boxes range from 3 to 54 modules or positions, accommodating small to large electrical distribution needs.
- Circuit Configuration:** Typically divided into 4 to 36 channels with individual circuit breakers for safety.
- Surface-Mounted Design:** Most boxes are surface-mounted for easy installation.

Features

- Transparent Covers:** Some models feature high-definition transparent doors for easy monitoring of internal components.
- Knockout Holes:** Flexible wiring options with top and bottom knockouts; some models allow smooth, flat surfaces for customization.
- Impact Protection:** IK09 rating for resistance to physical impacts.
- Temperature and Safety Compliance:** Glow wire test up to 650°C, UL 94 V-2 rating, halogen-free and silicon-free materials.

Applications

- Industrial and Commercial Installations:** Factories, warehouses, and outdoor electrical setups.
- Photovoltaic Systems:** Managing energy flow from solar panels to storage or grid.
- EV Charging Stations:** Durable boxes for safe electrical distribution in charging infrastructure.
- Customization Options**
- Size and Module Adjustments:** Boxes can be tailored to specific project requirements.
- Material and Cover Options:** Choice of ABS...
