

Supplier of optical communication testing instruments

AI Overview

Top suppliers of optical communication testing instruments include TRIOPTICS, Optikos, DataRay, GAOTek, Luna, and OZ Optics, offering a wide range of fiber optic and photonic testing solutions. Leading Suppliers and Their Offerings

TRIOPTICS (Germany) specializes in measurement and manufacturing systems for lenses, optical lens systems, and camera modules, providing instruments for quality control and optical metrology .

Optikos offers standard and custom optical testing products, IQ Lab testing services, and engineering support for optical system development, focusing on advanced optical metrology and electro-optical design .

DataRay Inc. develops laser beam analysis solutions, including beam profiling cameras, scanning slit profilers, and specialized accessories for precise laser characterization .

GAOTek provides a comprehensive range of fiber optic test equipment, including OTDRs, optical fiber testers, fusion splicers, SFP transceivers, and CWDM/DWDM modules, suitable for field technicians, data centers, and telecom networks .

Luna Innovations offers high-performance optical component analyzers, OBR reflectometers, polarization controllers, and emulation products for photonic integrated circuits, fiber network testing, and system characterization .

OZ Optics (Canada) supplies fiber optic components, test equipment, polarization controllers, variable attenuators, and laser-to-fiber delivery systems, supporting both production and research applications .

Additional Suppliers and Resources

- Schaefer+Kirchhoff:** Polarization-maintaining fiber optics, lasers, and inspection systems .
- NYFORS:** Advanced glass processing and fiber splicing equipment .
- Nextrom:** Production technologies for optical fibers and fiber optic cables .
- Global Communications / Teracom:** Laser diode drivers, dispersion compensation modules, and optical communications test products .

Vantor: Forging the new frontier of spatial intelligence

Vantor is driving a more autonomous, interoperable world across the defense, intelligence, and commercial sectors. Our spatial intelligence products combine

Optical Testing Instruments | Suppliers

An optical testing instrument is a device or system used to evaluate and measure the performance, quality, and characteristics of optical components, systems, and devices. Optical testing instruments

Home | Advanced Energy

Life Science Advanced Energy's power supplies offer a reliable, accurate, ultra-low ripple high voltage power delivery that elevates

Optical Testing | Suppliers | Photonics Buyers' Guide | Photonics ...

Extensive suite of application-focused instrumentation for life sciences and materials research and production covers the full range of metrology techniques, sample sizes, and imaging resolutions.

Home | TRIOPTICS

We offer optical measurement and manufacturing systems for quality control and assembly of lenses, lens systems, camera modules.

Thomas Scientific

Thomas Scientific, a trusted lab supplier since 1900, provides the latest in equipment, supplies & chemicals to scientific research & educational organizations.

Photonics Online: The latest news, products, and

Photonics Online offers news and product information for camera components, light sensors & detectors, lasers, optical lenses, optical filters, optical coatings, optical

Optical Communications Products

Browse our optical communication connectivity products designed to help you enable your communication networks. Easily create a bill of materials list.

Photonic and Optical Test

Keysight offers various optical component test products, optical spectrum analyzers, tunable lasers, power meters, optical attenuators, and dispersion analysis.

Corning | Materials Science Technology and Innovation

Corning Incorporated is a global-leading innovator in materials science, with 170 years of life-changing inventions and category-defining products.

Environmental Equipment & Supplies

Find & compare Environmental equipment for a variety of industrial applications from thousands of suppliers. Get accurate info & quotations for your projects.

PerkinElmer | Science with Purpose

We believe in the power of science to transform our world. Together with scientists and operators worldwide, we empower progress by providing trusted insights and services that accelerate work and

Optical Communications / Test | Global Communications

TeraComm is proud to represent the leading optical communications test products in the world offering the widest breadth and most comprehensive solutions for optical communications test products to be

ZYGO | Precision Optical Metrology | Optical Components

ZYGO is a worldwide supplier of optical metrology systems, custom optical components, and complex electro-optical systems design and manufacturing.

Link Microtek

We are a premium UK supplier, offering high specification RF & Microwave Components and Test & Measurement Equipment for a variety of industrial sectors.

[Home](#) | [Taetron Technologies](#)

Taetron Technologies is a leading US based supplier of test and measurement equipment for fiber optic, telecommunications, networks, PSTN, CATV, environment, chemical and bio-medical test and

[SHIMADZU CORPORATION](#)

Since 1875, Shimadzu is pursuing leading-edge science and technologies in analytical and measuring instruments including chromatographs and mass

[Fiber Optic Test Equipment](#) | [Fiber Instrument Sales](#)

Test equipment is designed for precise optical performance in demanding network environments from [Fiber Instrument Sales](#).

[Optical Testing Instruments](#) | [Suppliers](#)

Explore 74 top manufacturers and suppliers of Optical Testing Instruments in our comprehensive photonics buyers' guide. An optical testing instrument is a device or system used to evaluate and

[Advanced Materials and Lab Equipment Supplier - MSE Supplies](#)

MSE Supplies is a trusted global supplier of advanced materials, lab equipment, and analytical services for research and industry. We Enable Innovation.

[Worldwide standard for optical metrology](#)

We offer optical measurement and manufacturing systems for quality control and assembly of lenses, lens systems, camera modules.

[Automation Solutions Provider](#) | [Brooks Automation](#)

Brooks Automation is a global automation solutions provider supporting semiconductor manufacturing, lab automation, and emerging industrial applications.
