

Unv optical switch

Overview

Silicon based high-speed 2×2 nanosecond optical switching devices and modules

Features: No moving components, Fast switching speed, Extremely stable, latch mode, low power consumption, Excellent stability and reliability. Applications, High speed protection, System monitoring, Test. Uniview network switches are reliable and stable, support smart operation and management, and come in a variety of models, meeting your needs for network equipment from access to core levels. NSW5130 Series supports multicast protocols such as IGMP, IGMP Snooping, FRRP (fast ring. This article provides a comprehensive overview of optical switches, covering their operating principles, classifications, key applications, and future trends. EXTEND (Surveillance mode): Transmission distance up to 250 meters. Products are exported to more than 120 countries, including those in Europe, North America, Southeast Asia, and the.
