

What types of local network cabinet equipment are available in Botswana

AI Overview

Botswana offers a variety of network cabinet equipment, including rack enclosures, shelves, fiber optic cabinets, and accessories from both local suppliers and international brands.

Types of Network Cabinets

- 1. Rack Enclosures and Cabinets** Local suppliers like CompuCare provide feature-rich rack enclosures optimized for cable management, airflow, and power distribution. These include options with casters, doors, keys, leveling feet, roofs, and side panels, suitable for both small and enterprise networks. Apex Holdings also stocks metal and PVC data cabinets for structured cabling installations.
- 2. Fixed and Adjustable Shelves** Cabinet shelves, such as the 1U 19-inch fixed shelves, are available for mounting servers, switches, and other network devices within racks. These shelves support organized equipment placement and easy maintenance.
- 3. Fiber Optic and Specialized Cabinets** For fiber networks, suppliers provide fiber optic cabinets and accessories, including splicing machines, test equipment, and cable management solutions. These are essential for high-speed backbone and enterprise deployments.
- 4. Accessories and Complementary Equipment** Network cabinets are often complemented by cable ducts, connectors, power distribution units (PDUs), UPS systems, and cooling solutions. Apex Holdings, for example, stocks over 400 lines of network cabling and accessories to support complete installations.

Suppliers and Brands

Local Suppliers: CompuCare and Apex Holdings offer a wide range of cabinets, shelves, and accessories for both commercial and enterprise networks.

International Brands: Cisco, Juniper, Ubiquiti, MikroTik, Huawei, and Cambium products are available through distributors in Botswana, providing genuine networking hardware including cabinets, switches, routers, and firewalls.
