

Where are US web server racks located

Overview

Interactive map of 800+ US data centers — hyperscale, colocation & AI facilities from AWS, Google, Microsoft, Meta, Equinix across all 50 states. We currently have 4497 data centers listed, from 50 states in USA (America). Click on the headers to sort the states by name or data center count. The. Our Weehawken fiber-linked data center, located on the Hudson River waterfront less than 10 miles from the New York Financial District, provides quick access to New York City via ferries, tunnels, and highways. This site's proximity to major financial and business hubs makes it a desirable location. H5 Data Centers' New York data center is located at 325 Hudson Street, a 240,000 square-foot data center along the Hudson Fiber Corridor in lower Manhattan. Data with us is secure with 24/7 security guards on-site. We offer a 100% network uptime, power availability, and cooling availability. Our annual Meta Data Center Community Action Grants program provides direct funding to schools, nonprofits, and community organizations in data center communities to advance their critical work. We have a variety of job opportunities available — electricians, HVAC specialists, server and network.
