

Wholesale Price of Low-Voltage Distribution Boxes in Libya

AI Overview

Wholesale prices for low-voltage distribution boxes in Libya typically start around \$1.24 per unit for basic models, with higher-end or customized panels costing significantly more depending on specifications and local manufacturing. Local Suppliers in Libya Several companies manufacture and supply low-voltage distribution boxes in Libya: AHK Company / Al-Shafaq: Specializes in low and medium voltage industrial electrical materials, including custom-manufactured low-voltage distribution panels for residential, commercial, and industrial projects. They provide boxes according to international standards and the General Electricity Company specifications. Al-Hussain for Electrical Industry and Services (HEISCO): Manufactures distribution panels ranging from 80-3200 A, including panels for oil, gas, and industrial applications. They use ALUZINC steel and modern CNC machinery to ensure high-quality enclosures. Elsewedy Electric Libya: Offers a full range of electrical products, including low-voltage distribution boxes, with distribution across Tripoli and Benghazi. These local suppliers often provide customized solutions, which can affect pricing based on amperage, enclosure material, and additional features like automatic transfer switches or IP ratings. Typical Wholesale Pricing Basic low-voltage distribution boxes (single-phase, MCB panel boards) are available internationally starting at \$1.24 per unit for bulk orders. Customized or industrial-grade panels with higher amperage, multi-phase configurations, or additional safety features can range from \$50 to several hundred dollars per unit, depending on specifications, materials, and local manufacturing costs. Imported boxes may incur shipping, customs, and local taxes, which can increase the final wholesale price in Libya. Recommendations for Buyers Contact local manufacturers directly (AHK, HEISCO, Elsewedy Electric) to req...
